PTFE Insulation Articles

Product number:PTFE Insulation Articles

PTFE insulation articles for electronic and electrical industries are manufactured by ram extruding method with PTFE granular resin. It skived by machine. It has the most chemical-resistant and the best dielectrical properties. It has the lowest coefficient of friction of all known solid materials and a wide range of practicable temperature from -180 - +260

[Has reliable electric insulation skived by machine]

Voltage resistance test under working frequency

Joining the insulator with conducting rod at 50Hz,dipping it into oil then testing.

Test result:

All are up to the standard

[Partial discharge test]
